

Phillips Hardware

To Our Valued Customers,

Our thoughts and prayers are with you and your loved ones during these uncertain times, and like so many, we have a heavy heart as we hear each day about the impacts COVID-19 is having on our communities. The health and safety of our customers and employees is our top priority. We continue to monitor this situation closely and wanted to take a moment to summarize some of the things we are doing to keep our stores and products accessible to you.

While the Phillips Family is in full support of taking measures to mitigate exposure to the virus, we wholeheartedly believe that independent hardware stores are vital to the community in times of need. Whether it is cleaning supplies, paint, tools, or home maintenance products, hardware stores play a critical role in keeping homes and communities functioning. In order for small businesses to survive the impacts of this crisis, we need our neighbors to patronize our local businesses.

Phillips Hardware will be offering delivery for those in need (minimum order \$25). Neighbors can email or call our locations with your orders (Contact information listed below). We are waiving our normal delivery fees within 3 miles of our locations and over 3 miles will be a reduced rate of \$15. Individuals can contact anyone listed below with any special inquiries of when certain products will be available.

Potential Products and Services to keep in mind when shopping us are **small engine repair** (sharpening, mowers, snowblowers, chainsaws, and trimmers), **window and screen repair, propane fill and exchange, Primo water exchange, pool testing, key cutting, cleaning supplies, home improvement products, fertilizer, grass seed, and soils.**

Phillips Hardware will continue to keep our stores clean and as a smaller retail site, we are experiencing less traffic than bigger locations which creates a safer environment to shop.

Thanks for Supporting Local Businesses,
The Phillips Family
